

Charles Robert Darwin
AD 1809 – AD 1882

Developed a theory of evolution in which all species descended from common ancestors.

Gregor Mendel
AD 1822 – AD 1884

Austrian Augustinian monk who showed that inheritance of simple traits followed statistical rules for random distributions.

AD 1810

AD 1815

AD 1820

AD 1825

AD 1830
